EDUCATION

Rashtreeya Vidyalaya College of Engineering (RVCE)

Bangalore, India

Bachelor of Engineering in Computer Science and Engineering (Cyber Security)

2024 – 2028

GT School and Junior College, HSC Board

Pune, India

Science (PCM+CS), Grade 12

2022-2024

SKILLS

Core Computer Science: DSA, OOP, Linux, Operating Systems, Computer Networks, DBMS

Programming: Python, TypeScript, JavaScript, C, C++, Java, SQL

Web & Mobile: React, Flutter, Node.js, Express.js, FastAPI, Flask, Django, REST APIs

AI / ML: LLMs, RAG, Prompt Engineering, AWS Bedrock, Computer Vision, Scikit-learn, Feature Engineering, NLP basics

Cybersecurity: Network Security, Active Directory Security, Intrusion Detection Systems, Threat Detection, Wireshark, Nmap

Database, Cloud & Tools: PostgreSQL, MySQL, SQLite, AWS ((Lambda, App Runner), Docker, Git

EXPERIENCE

[CatchUpX \(Pre-launch EdTech Startup\)](#)

Remote

Technical Co-Founder & Technical Lead

01/26 – Present

- Developed an AI-powered personalized learning platform using **TypeScript, Python, AWS Bedrock, and Docker**.
- Built adaptive learning-gap analysis and personalized study plan generation validated through pilots in **2 schools**.
- Led **product architecture, cloud deployment, and technical development** through **leadership** and **teamwork**.

AI Engineering Intern

Remote

Capabl

02/26 – 06/26

- Developed a **RAG-based AI platform** using **TypeScript, Python, PostgreSQL, and LLM-powered retrieval pipelines**.
- Designed **multi-tool agent workflows** integrating semantic retrieval, context assembly, and AI-driven response generation.
- Built **backend orchestration APIs** and **database pipelines** through **cross-functional collaboration** and communication.

PROJECTS

[SmartStay – AI-Powered Accommodation Discovery Platform](#)

10/25 – 02/26

- Architected a full-stack property discovery platform with intelligent search and user feedback analysis for 400+ users.
- Expanded platform using **React, TypeScript, Flask, and Supabase** with real-time chat and notification features.
- Integrated **LLM-based AI** for property description generation, personalized recommendations, and user assistance.

[Sherlock'd – Full-Stack Hackathon Management Platform](#)

03/26 – 04/26

- Built a secure hackathon platform for **400+ participants** with team registration, project submissions, and live leaderboards.
- Developed using **React, TypeScript, FastAPI, PostgreSQL (Supabase), and Tailwind CSS** with **JWT** authentication and **RBAC**.
- Automated submission workflows for **100+ teams**, improving efficiency through structured problem-solving.

CERTIFICATIONS

[Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate](#) | [Oracle Cloud Infrastructure 2025 Certified Data Science Professional](#) | [Oracle Data Platform 2025 Foundations Associate](#)

ACHIEVEMENTS

- **Achieved top 1% nationally** (JEE Advanced AIR 15,207, MHT-CET 99.002 percentile, COMEDK AIR 779) and secured **2nd Runner-Up** at Prayatna 3.0 Hackathon among **500+ participants**.
- **Co-Founder & Tech Lead, Heapify Global Community; Junior Core Team Member, GDG RVCE**, leading collaborative teams to organize hackathons and technical events, including **Google-backed AI community initiatives**.
